B.Tech.
Gender: Male
+91-7903385276

Examination	University	Institute	Year	CPI / %
Graduation	SRM IST	SRM IST	2023	8.48
Intermediate	CBSE	HMISS School, Patna	2023	70.17
Matriculation	CBSE	GD Goenka Public School,Patna	2021	77.77

RELEVANT COURSES & SKILLS	
COURSES	AI ML - IIT Patna Cybersecurity - Coursera Cloud Computing - Skill Vertex Algorithms - Stanford
SKILLS & PLATFORMS	Python, SQL, GitHub, Linux, VS Code, Firebase, Node.js, FAISS, Ollama, Cloud Computing, ML, Colab

PROFESSIONAL EXPERIENCE	
Outlier.AI [Freelance]	• Contributed to AI model evaluation and data quality improvement for LLM optimization.
AI ML Intern INFOSYS [Dec'25 - Mar'26]	• Developed AI based PCB defect detection system improving classification accuracy by 30% • Processed and analyzed 1500 plus image samples, reducing manual inspection effort by 40% • Implemented ML pipelines and computer vision models, decreasing false detection rate by 25% • Optimized preprocessing and evaluation workflows, improving model performance by 20%
Treasurer & Developer DNS SRM [August'2025]	• Managed budget planning and financial allocation for 5 plus technical initiatives • Contributed to ML based fraud detection system achieving 92% detection accuracy • Supported execution of technical events with 200 plus participants
TeamLeader&WebDev Koshish Trust Patna [Jun'25 - Jul'25]	• Lead a 4 member team to design and deploy a full featured NGO website • Built donation, event management, and admin modules, increasing digital engagement by 35% • Managed task allocation and delivery timelines, ensuring 100% on time execution • Improved operational efficiency and online visibility through structured system design

KEY PROJECTS	
AI Based PCB Defect Detection System Applied Machine Learning [Dec' 25 – Mar'26]	▪ Developed and evaluated 4 classification models for PCB defect identification using supervised learning techniques ▪ Processed 1500 plus image samples using NumPy, Pandas and OpenCV for preprocessing and feature extraction ▪ Implemented CNN based architecture achieving 92% classification accuracy and reducing manual inspection effort by 40% ▪ Optimized model performance through hyperparameter tuning and cross validation improving precision by 25%
QAFL for Healthcare [Feb 2026 – Present]	▪ Building a quantum federated adaptive learning model to secure patient healthcare data, preventing third party data exposure while enabling privacy preserving distributed training across medical stakeholders
KathaSaar AI Chatbot AI and NLP System IIT Patna [Jan 2025 – Jul 2025]	▪ Developed an AI based conversational chatbot using NLP and retrieval architecture to enhance contextual response accuracy and system scalability ▪ Designed an optimized user interface and improved performance efficiency through structured model implementation ▪ Project rated A and awarded Best Project by IIT Patna faculty for innovation, technical excellence, and problem solving impact

Research and Applied Projects	
Credit Card Fraud Detection System FinTech Machine Learning Academic Project [Mar 2025 – Aug 2025]	▪ Built and compared Logistic Regression, Random Forest and Gradient Boosting models for fraud classification ▪ Analyzed financial transaction dataset of 10000 plus records using Python and Scikit Learn ▪ Achieved 92% fraud detection accuracy with reduced false positive rate ▪ Applied data preprocessing, feature engineering and model evaluation techniques for risk mitigation
Hybrid Quantum Fraud Detection Using Machine Learning Techniques IJARCCE Oct 2025	▪ Proposed a hybrid quantum inspired machine learning framework for fraud detection in financial systems, focusing on classification accuracy and financial risk mitigation ▪ Improved detection reliability through feature engineering and scalable model design Publication Link: https://ijarcce.com/papers/hybrid-quantum-fraud-detection/

ACCOLADES AND AWARDS	
▪ 1st Place Human vs AI National Symposium 2nd Place CSI International Project Competition [2026] ▪ 1st Place Runecode National Coding Competition demonstrating advanced algorithmic problem solving [2025] ▪ Awarded Letter of Recommendation by Director Koshish Charitable Trust for leading full scale NGO Website Development ▪ Secured State Rank 2 in SOF English Olympiad 1st Rank in Mathematics Olympiad demonstrating strong analytical foundation	

EXTRA-CURRICULARS	
Leadership	Team Lead Koshish NGO Website Treasurer Developer Network Space Mentored peers in AI ML and project development
Sports and Discipline	State level Martial Arts Inter school Sports Participation Strong record of physical training and consistency
Public Speaking	Participated in technical symposium presentations Presented AI projects at national level events
Social Impact	Led NGO digital transformation initiative Contributed to community technical events and outreach programs
